

ESHG-Y NETWORK &

YOUNG GENETICIST NETWORK

Who are we?

ESHG members over the age of 35 undergoing a master, PhD, residency or genetic counseling training at the time of the ESHG annual meeting.

Where did we come from?

THE VERY BEGINNING 2017

Networking platform for clinicians and scientists in Human Genetics <u>under 35 years of age</u> or <u>currently in training</u>

Florence R-Icc a partagé un lien. O Admin - 1 décembre, 13:09 - O ---Dear colleagues, We are contacting you to collaborate on the UNIQUE Project (volunteer and pro bono work). UNIQUE is a charity supporting, informing and networking with families living with Rare Chromosome Disorder or some Autosomal Dominant Single Gene Disorders. They focus on conditions with learning disability and developmental delay. They provide specific information to parents, carers and other professionals (website: https://www.rarechromo.org ; email: info@rarechromo.org). The European Network of Reference (ERN) ITHACA (https://ernithaca.eu), led by Prof. Alain VERLOES (Paris, France), is in charge of disseminating UNIQUE guides through Europe (https://www.rarechromo.org/disorder-guides/). So we are looking for volunteers who are from France, Italy, Poland, The Netherlands, Germany, Portugal or Spain (native speakers) to correct some UNIQUE guides. Your contribution would be to proofread the text and do any minor corrections if needed. With this collaborative work, we could help many European families to access competent and proficient information about rare conditions. Your work will be acknowledged and your name will be included in the translated disorder guide. If you are interested, contact us : young.geneticist@gmail.com. All the best, The ESHG-Young Board RARECHROMO.ORG Unique | Disorder Guides 08 1 commentaire 🖒 J'aime Commenter Lau Bld I sended a mail 😏 J'aime · Répondre · 1 som

Creation of the first official office 'ESHG-Young' in 2019/2020

What are our objectives?

- Increase the representation of young geneticists starting with Europe.
- Build a growing community and facilitate communication between young European human geneticists.
- Create and implement new projects that will enhance the performance of young geneticists and sustain the young generation to be heard, understood and empowered.
- Develop collaborations with other human and medical genetic societies from all over the world.
- Promote interdisciplinary collaborations.

Why should you join our network?

- Education Resources: seminars, webinars, workshops, conferences
- Exchange professional opportunities
- News Updates regarding observerships, fellowships, mentorships, research grants
- Make friends
- Improve your career by actively getting involved in the ESHG-Y activities, become part of the ESHG-Y Board, become an officer

ERN-ITHACA
@ERNIthaca

Congratulations to the ITHACA Fellowship recipients for the Dysmorphology in the Genomics era course in Manchester, Florence Riccardi (Marseilles, FR) and Iulia Elena Jurca-Simina (Timisoara, RO)! Pictured alongside @gm_jill and @SofiaDouzgou #ernEU #ithaca
