

OPEN POSITION

Department Chair for Rare Diseases

Turkey's only Center of Excellence in the life sciences seeks a rare disease expert with an excellent track record as the head of its Unit for Rare Diseases.

With funding from the European Commission (ERA Chair project RareBoost, 2.5M Euro budget) the successful candidate will be able to establish an interdisciplinary research team to pursue basic and translational research on rare diseases.

For the detailed job description and required qualifications: <https://www.ibg.edu.tr/jobs/details/107>. The evaluation of the candidates will start on **September 30th, 2022**.
