

International Federation of Human Genetic Societies (IFHGS)

Helena Kääriäinen

- As individuals, we all are members of our National Societies.
- We also are members of ESHG.
- IFHGS is a federation of Human Genetic Societies.
- We belong to IFHGS via ESHG, which is a Full Member of IFHGS and via our National Societies, which are (or could be) Corresponding Members of IFHGS.

What does IFHGS do?

- The main goal is to facilitate global communication among geneticists
- A main task is to help in planning International Congresses of Human Genetics (ICHG).
- Next ICHG is in Cape Town March 2021
- ESHG had the presidency for IFHGS in last years, now African Society of Human Genetics (Michelle Ramsay) has the presidency.
